

LONDON CAPITAL COMPUTER COLLEGE

[London Capital Computer College Franchise/Affiliation with College/Higher Education Establishments](#)

London Capital Computer College welcomes organisations or individuals interested in Franchising or Affiliating with us. In interested, complete the Franchise/Affiliation Application Form and email back to us together with required documents and payment information.

London Capital Computer College is an educational community with a shared pride in its history and achievements and a clear vision for the future. We are committed to encouraging the pursuit of higher education by all those who can benefit from it.

Gaining an academic or professional qualification is often an essential step in advancing your students' professional career. Franchise/Affiliation offers new ways of thinking about the world; which will help your organisation's future.

London Capital Computer College is the gateway to an outstanding range of computing, accounting and business courses. Advice and training is available to interested Franchised/Affiliated colleges. Our aim is to make it easier for colleges to move forward and develop, by offering courses tailor made to meet the everyday developments in today's fast changing world.

We are situated in the heart of London's Financial District, the City. Make London Capital Computer College your first point of call whenever you think of advancing your organisation. There is an extensive range of courses to choose from, provided through full time teaching and we will help you through all the options.

The detailed syllabus for all courses (from Certificate to Advanced Diploma) can be downloadable from the website; www.londoncomputercollege.co.uk, enable both tutors/students and college personnel to be fully conversant with what should be covered in their learning and running of London Capital Computer College programmes respectively.

Benefits of Franchise/Affiliation

1. Colleges receive guidance and advice from an international organisation with vast experience and exposure
2. Colleges can learn from others
3. Assurance to users that qualifications are delivered by an organisation whose integrity, governance, resources and competence has been independently checked.
4. Assurance to stakeholders that qualifications are monitored and meet robust requirements, including that they are of the standard and level they purport to be.
5. Assurance to employers, universities and government that qualifications meet robust requirements.
6. Opportunities to be referenced to national and international frameworks providing progression and transfer opportunities for students.
7. Enhancing standing of organisation in competitive markets locally and internationally.
